Education

International Institute of Information Technology, Bangalore **July 2023 – July 2025**
Master of Science in Digital Society *CGPA: 3.67/4.0*

Charotar University of Science and Technology, Anand **July 2020 – May 2023**
Bachelor of Science in Information Technology *CGPA: 9.91/10.0*

Experience

Junior Software Engineer **August 2025 – Present**
Center for Smart Governance *Bengaluru, Karnataka*

- Conducted **structured domain research** across public health, welfare programs, and GovTech; applying systems thinking to identify inter-dependencies among programs and institutional workflows, and defining **evaluation metrics** and analytical questions to assess performance outcomes and systemic interactions.
- Designed and developed **2** interactive BI dashboards using Apache Superset for Karnataka's Kaveri platform, defining **15** KPIs across **10+** administrative datasets to translate complex data into actionable, decision-ready insights.
- Contributing to the **design and development** for the Karnataka Legislative Assembly and Council Questions Dashboard, managing LAQ/LCQ workflows, independently authoring the functional requirements document.

Business Analyst Intern **January 2025 – July 2025**
Center for Smart Governance *Bengaluru, Karnataka*

- Developed an **interactive Streamlit dashboard** for a state-level digital public service platform to rank administrative units at district and state levels, enabling performance benchmarking and data-driven operational insights.
- Analyzed large administrative datasets and conducted **qualitative research** to extract performance insights, validate data accuracy, and design visualizations for institutional performance evaluation.

UX Research Intern **January 2024 – April 2024**
Samsung R&D Institute India *Bengaluru, Karnataka*

- Led **quantitative and qualitative research** to identify user needs and pain points in cross-device file sharing, conducting structured analysis to uncover behavioral patterns and usability gaps.
- Synthesized research findings and delivered actionable recommendations to the design team to improve file-sharing workflows and user experience.

Projects

University Students' Perceptions of LLM-Based Tools | *Qualitative Research, Interviews* |Blog

- Conducted qualitative research by interviewing **20** university students (snowball sampling, informed consent, positionality statement) on their attitudes toward LLM-based tools and comfort with data-sharing practices.
- Identified four themes: trust and reliability (privacy, bias, hallucination), ease of access and efficiency, academic integrity, and career impact; findings point to AI augmenting rather than replacing students' skills.

WasteNot | *User Research, Figma* |Blog

- Undertook extensive user research by interviewing and gathering insights from **17** stakeholders, including consumers, recyclers, and NGOs, to understand e-waste management in Electronic City, Bengaluru.
- Designed an intuitive and user-friendly UI to seamlessly connect consumers and formal recyclers for responsible e-waste disposal in the city.

Spectrum Auction Price Analysis | *Python, Microsoft Excel, R* |GitHub

- Compiled and processed spectrum auction data from various governmental telecom agencies, implementing robust data cleaning techniques to ensure accurate analysis.
- Performed panel regression analysis to assess factors influencing spectrum auction prices, leveraging its ability to account for both temporal and regional variations and providing actionable insights that contributed to **3** published news articles.

Skills

Research Methods: User Interviews, Qualitative Analysis, Informed Consent Practices, Survey Design, Contextual Inquiry, Usability Testing, Persona Development, Heuristic Evaluation, Statistical Analysis
Data and Tools: Python, R, SQL, Apache Superset, Tableau, QGIS, Quarto, Git/GitHub, Machine Learning Methods
Spoken Languages: English, Hindi, Tamil, Gujarati

Achievements

- Amongst the top **4** students out of over 130 students to get selected for the Undergraduate Student Fellowship at CHARUSAT University.
